Special to the Arab Times

KUWAIT CITY, June 26: Indian national Abdul Razzak Rumane has been listed in Marquis Who's Who, an American publication, which compiles the biographies of only those individuals who have demonstrated outstanding accomplishments in their professional field and who have contributed significantly to the betterment of contemporary society.

Rumane has also been listed by the International Biographical Center, Cambridge, England among 2000 prominent scientists of the 20th Century in honour of his substantial contribution in the field of consultancy and engineering.

Furthermore, the American Biographical Institute has recognised his

career accomplishments, which have been selected for permanent record of documentation in 'Five Hundred Leaders of Influence' which will be kept on permanent record at the US Library of Congress, Washington.

Rumane is an electrical engineer with a leading engineering consultancy in Kuwait, and a fellow of the Institute of Engineers in India, and senior member of the Institute of Electrical and Electronics Engineers of the USA.

He was born in 1948 at Chandve, a small village in Maharashtra, India.

He has worked as a consultant engineer involved in design and supervision of electrical-related works — electrical ser-

vices, fire alarm and phone systems and conveying system.

He has also published some articles on engineering in journals and newsletters and is a member/fellow of various engineering societies, institutes, and is affiliated to various social and welfare societies.

He is also one of the senior members of the Institute of Electrical and Electronics Engineers of the United States.

During the Iraqi invasion, Rumane worked in Saudi Arabia as a consulting engineer supervising the construction of emergency projects for the Allied Forces, undertaken by the Ministry of Defence and Aviation and the US Corps of Engineers.

He is married with a son and daughter, both of whom are graduate engineers.
