Indian National in Kuwait to release Book on "Quality Management in Construction Projects"

Posted on 1/11/2011

Indian National Dr. Abdul Razzak Rumane will release his first ever book on Quality Management in Construction Projects in a function to be held at Gulf University for Science and Technology today. Indian Ambassador to Kuwait HE Sri Ajai Mahotra will be the chief guest. The book published by CRC Press, Florida and authored by Dr. Abdul Razzak Rumane employed with SSH International Engineering Consultants, presents key information on how to approach quality assurance for construction projects.

The book is concise and easy to read. Containing quick reference tables and a wealth of figures, the book presents valuable quality related data and guidelines, with coverage that spans from the inception of a project through to issuance of a completion certificate. In addition to covering standard procedures and concepts, the author introduces and discusses a wide range of the-state-of-the-art-tools and approaches professionals can use to develop Integrated Quality Management System most suitable for their specific project. These include Six Sigma, TRIZ, and Total Quality Management, as well ISO 9000, ISO 14000 Environmental Management System, and OHSAS 18000.

The book provides sufficient information that will also prove valuable for cutting-edge instructors who wish to provide engineering/management student with an in-depth knowledge about current practices and familiarize them with the vernacular used in discussing quality assurance practices within the construction industry, informed Dr Rumane.

Dr. Rumane is a celebrated engineer having received various awards and medals. His biography has been listed in Marquis Who's Who in Science and Engineering, The Barons 500-Leaders for the New Century, 500 Founders of 21st Century, 500 Leaders of Influence, Asian Admirable Achievers, amongst other listings. Dr. Rumane is also selected as one of the Top 100 Engineers-2009 of International Biographical Centre (IBC), Cambridge, UK. He also serves as a senior Member IEEE (USA) and former Chairman, IET, Kuwait Chapter. He has Ph.D. with dissertation "Quality Engineering Applications in Construction Projects" from Kennedy Western University, USA and was awarded Honorary Doctorate by The Yorker International University in Italy.

As the editor of the Industrial Innovation book series, I can attest to the fact that Dr. Rumane's book is head and shoulder above all books on managing construction projects. It is an excellent intellectual work that is required for business, industry, and government institutions as well as educational institutes.
