Indian professional from Kuwait Dr. Rumane Participated in People to People Citizen Ambassador Program

Posted on 11/3/2010

Dr. Abdul Razzak Rumane Senior Member IEEE (USA) and former Chairman, IEI, Kuwait Chapter for was invited to participate as a member of the Electrical, Electronics and Computer Engineering delegation under the auspices of People to People Citizen Ambassador Program, which was led by Dr. Robert A. Hanna, past president of IEEE, Canada (2006-2007) and director of IEEE-Region 7. The delegation specializing in electrical, electronics and computer engineering visited India in October 2010. The delegation consists of professionals from Brazil, Canada, Hong Kong, Kuwait, Japan, Nigeria, Peru, and USA. The inclusion as a delegate member is

consider as recognition of professional expertise and a great honour for the members. The program has international importance promoting bilateral exchange, international peace and understanding. The delegation visited NISTAD (National Institute of Science, Technology and Development Studies, CSIR) New Delhi where they were welcomed by Dr. Parthasarathi Banerjee. The delegates participated in International Workshop on New & Renewable Energy Research: Challenges and Opportunities for New Technologies. From Indian side representatives from Research/Academia (NISTAD, NPL), Ministries (MNRE, MoF), and Corporate Sector (CEL) participated.

The topics of discussions were mainly focussing on;

- Philosophies about the renewable energy and interface challenges with the grid
- Research and development of renewable energy, particularly wind and solar power
- Application challenges to meet electricity demand using renewable energy
- End user experience with reliability and performance of electrical equipment used for generating wind and solar power

Dr. Rumane made presentation on Efficient Energy Consumption.
